

DECK SPACER

Space boards and fasteners with *precision.*

1/16 1/8 3/16 1/4

Deck Spacer is the perfect tool to ensure uniform spaces between deck boards, and to align deck screws during construction.

- Straight, consistent spacing results in a professional looking finish
- Each Deck Spacer offers the most common gap dimensions in deck construction
- Proper spacing allows water and debris to fall through the deck surface
- Works with both treated lumber and composite decking
